Burn All Love Letters Except Those Written From Husband to Wife

man who writes you love letters is your husband (such miracles happen now and then) EURN your love letters.

There is no value in a letter unless the sentiment which actuated the writer of it still exists; but there is danger to the happiness and peace of many people, ofttimes, in a letter which is kept by its recipient long after it has ceased to hold any meaning.

A romantic girl, full of the love of love, who receives ardent epistles from some admirer, frequently forgets judgment and throws caution to the winds, while she allows her sentimental fancy to express itself on paper. She is moved, perhaps, by the influence of some novel she has read and imagines herself the heroine as she writes. Her words mean nothing, they express only the mood of the love which are said to be bad for miracles is your husband (such miracles and it is a morbid state of mind which causes a woman to keep letters of a man who has ceased to him. There can be no more thankless ordeal than to read words of burning passion written by one who has ceased to feel the love which drove his pen to utterance. As well keep a corpse in the house after the breath of life has departed, as such letters.

Wasted emotion, wasted time, wasted opportunities, are the reward for keeping and reading over old love letters. The letters of a dead lover, so long as he or she remains the idol of the living heart, are sacred and beautiful mementoes.

But so soon as a new love occupies that living heart the old love letters should be reverently cremated and their ashes scattered to the four winds of heaven. nothing, they express only the mood of

the moment.

But years after, were these written words to be placed before the eyes of the man she really loves, they might cause untoid misery, unless that man proved to be large-minded enough to understand the situation.

Many men and women can listen and laugh while their consorts tell of some early infatuation—some rehearsal of the great drama of life which was played with an understudy.

But when they see the written dialogue of that rehearsal, in a package of old letters, they do not laugh.

When a woman ceases to love a man, or a man ceases to care for a woman,

NLESS you are married and the the guarding of the love letters is only man who writes you love letters explainable by selfish vanity. And it is
